The fine ART of bathing

Artweger
DYNAMIC

A specially designed hinge is at the heart of the new Artweger Dynamic. With its geometric yet rounded design, it fits in to practically any environment, no matter what the style.

1

3

Series of pictures from above: In the front view (Fig. 3), the dynamic hinge shows an impressive balance of two equivalent, elegant, shiny surfaces. From another perspective, the dynamic swing of the hinge becomes visible, emerging from the glass in a gentle wave (Fig. 4 + 5) and thereby harmoniously enriching the smooth geometric design (Fig. 1 + 2). The curved surface is enhanced by the light being reflected at different angles; the nature of the hinge seems to change permanently.

Artweger DYNAMIC

Style without question

Hinges and handles are the optical highlights of the new Artweger Dynamic shower range. They demonstrate an elegant combination of a curved, organic design with linear elements. As a result, the Dynamic fits in stylishly with any current bathroom design.

On opening inwards, the edge of the door pivots in the rounded cavity of the hinge and is then gently stopped by the sealant of the second glass part. When the door is closed, the two seals interlock, meaning that water leakage is effectively prevented.

Your style? The cool designer bathroom ...

Stylish and pure at the same time, this architect designed bathroom makes a clear statement for design and individuality. Right in the middle is the Artweger Dynamic with its unmistakable look.

Corner entry with swing doors

Artweger DYNAMIC

The customizable

The new Artweger Dynamic is remarkable thanks to a completely new design concept. Round, organic shapes and clean angular elements are brought together to create a harmonious form that has considerable benefits: it fits in with every design element in the bathroom.

This means that the new Artweger Dynamic can be combined with any fixtures and fittings with all sorts of designs.

Your style? A natural modern wellness bathroom.

This modern feel-good bathroom combining natural materials and suffused with light is a place to relax. Like being immersed in nature. The Artweger Dynamic fits in perfectly with the organic shapes of this bathroom.

Artweger DYNAMIC

Easy Care

The hinges are securely glued to the outside of the glass, the inside of the glass is completely smooth without any grooves. This makes cleaning and maintaining the shower glass easier.

An additional option is to choose ARTCLEAR GLAS, a new type of easy-care glass with a UV-hardened surface. Water rolls off, lime and dirt can hardly get a grip. It protects the glass for the life time of the shower and permanently reduces the amount of cleaning required.

Swing door in a niche with one fixed part

Your style? The functional family bathroom...

*This elegant bathroom is both functional and timeless with plenty of space for the whole family.
The Artweger DYNAMIC is a stylish highlight here.*

Artweger DYNAMIC

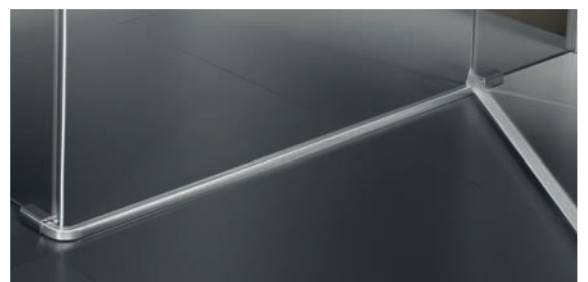

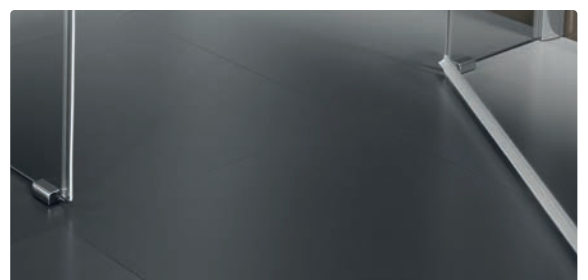

The reliable one

1/4-round shower with swing doors

Continuous vertical seals are sure to keep the water within the shower, even around the hinge area.

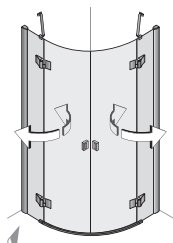

You can decide when installing the shower: 100% floor-level access or an optional 12 mm high surge bar, to give improved tightness in the door area.

Optional left or right opening, barrier-free access, standard height 200 cm, application **on** or **without** shower tray

high-gloss
metal

Hinges and handles

chrome

Glazing:

Single-pane safety glass 6 mm (ESG)

Glass clear

In the Artweger Dynamic special heat-treated safety glass (EN 12150) is used, which is more impact-, shock- and temperature-resistant. If the glass breaks then little crumbs are created which greatly reduces the possibility of injury.

Clean glass a shower life long!

ARTCLEAR GLASS is a new, permanently easy-clean glass for shower enclosures. The ARTCLEAR glass surface is specially treated and hardened by UV exposure. Water beads off, lime and dirt hardly find a hold - protects your glass for a shower life!
